We bought our dog a kong and he absolutely loves it ! The only problem is we can't find any cheapish treats that fit in properly, except for the kong brand ones that are pretty expensive at my local pet shops. It's not the same as the normals ones it's like this

<http://www.kongcompany.com/products/dogs/genius/genius-mike>

It only has x's at the ends for the treats so its hard to get peanut butter and that in. All the treats seem to be too big and can't fit in, or too small and fall straight out :@

So what brand treats or goodies do you put in kongs? :)
