What size gullet does the saddle have, and can it be changed by saddler?
What sort of horse has it been used on, and how old is the saddle?
Would you be able to measure the length of the saddle from the front of the pommel to the end of the panel?
I am looking for a saddle for my short backed horse and need something with panels that kick up

and isn't too long and bulky.
Thanks

Thanks for all of your PM's about the saddle.
I will try and answer all of you questions this afternoon if I can.
Cheers :)

Hi.
Thanks for all of your messages. Please see below some answers to your questions...
The gullet is medium to wide but can be easily changed by a saddler.
The saddle is made in England.
It's stamped 17 1/2 inch MW gullet under the flap.
I've used the saddle for about 3 years and love it but I've got a few so just selling saddles that are excess to my needs.
The saddle is about 8 years old I think. I purchased it in the UK when I was there and I bought it back to Australai with me.
Very comfy and puts the rider in a great position.
Cheers!
